**Diane and Central International Display
(the big spike, right side — Miss Chicago)**

Dear Glad Friend:

Again it is a pleasure to send you my 1951 list of gladiolus bulbs, being my 11th list.

It is a privilege to thank my 1950 customers for their orders, and for their expressions of satisfaction with the high quality of stock received, and the results obtained.

This list again presents a few novelties and exhibition varieties, priority of listing is given to gladiolus with cut-flower possibilities.

Wholesale prices are gladly sent to those entitled to them.

BUSINESS TERMS

Minimum order \$2.00. Retail orders are prepaid. Wholesale orders F.O.B. Oconomowoc. Overcount or extras with all retail orders. 5% cash discount on all retail orders paid for in full prior to December 15, 1950. Payment in full before shipment.

I aim to send out only healthy bulbs, true to name, and will cheerfully refund the purchase price on any order found unsatisfactory on receipt, and promptly returned; but no guarantee of growth is implied in the sale (careless usage of chemical dips and sprays make this mandatory) nor will I be responsible for the crop. All orders are placed with the above conditions accepted by the purchaser. All orders are accepted subject to stock crop and subject to prior sale.

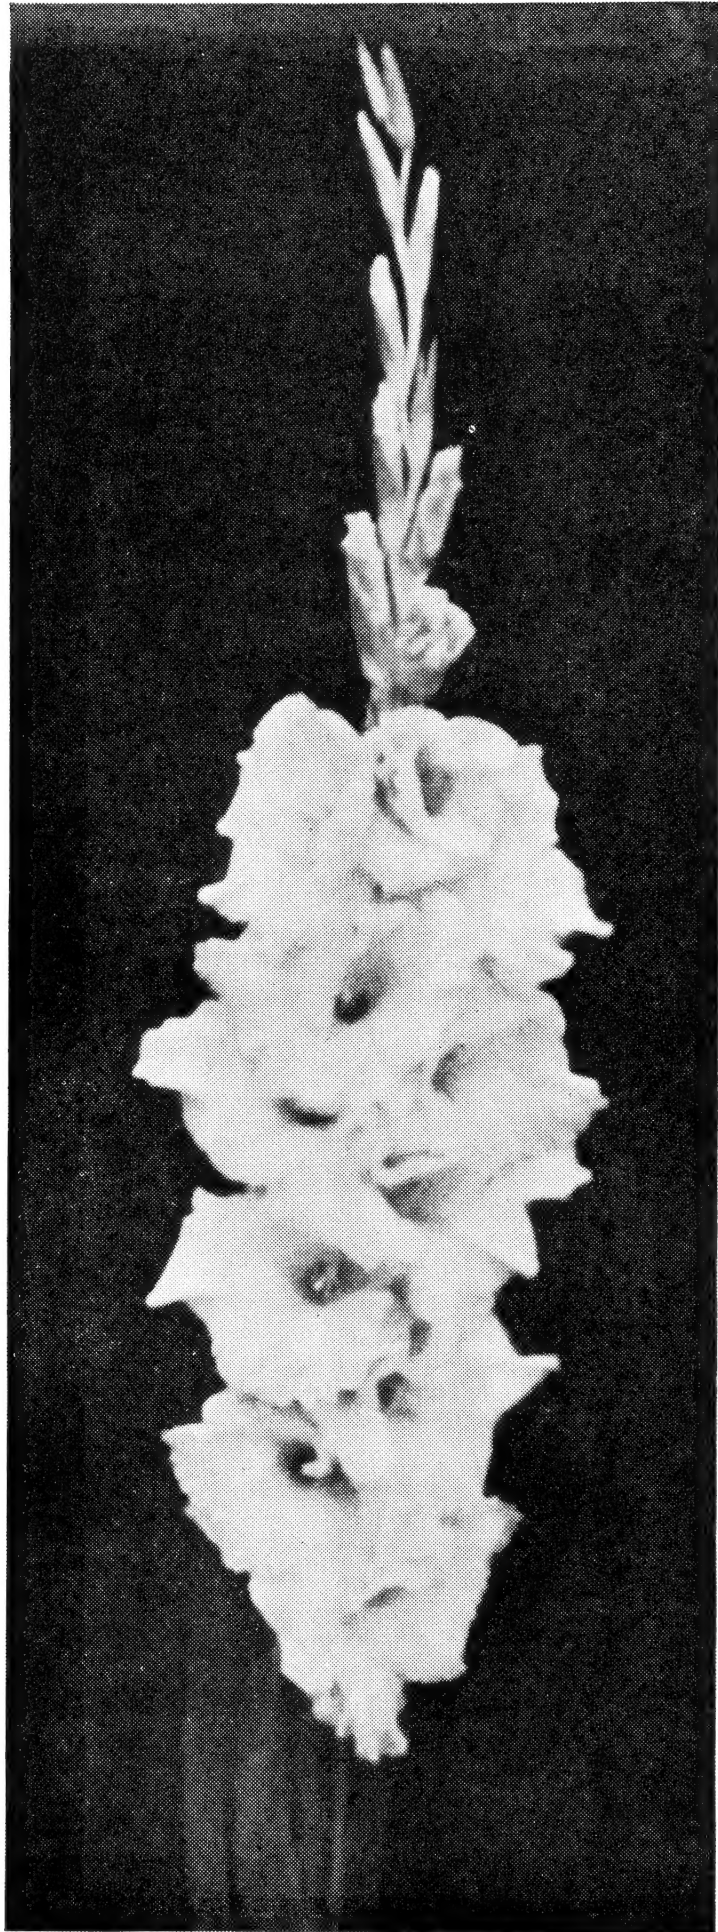

No bulblets orders are solicited nor accepted after April 1, 1951 for spring shipment.

Flowers and bulbs are inspected by the State Department of Agriculture, #1297.

This price list cancels all previously published retail prices, and voids any heretofore announced prices or price policies.

Signed,

WALTER C. KRUEGER

Bridal Orchid

AS I SEE THEM

Naturally I buy, and increase those varieties which function as commercials in my clay soil, which is underlaid by 13 ft. of gravel, and which has a ph rating of 6.3. My conclusions are based on observations of habit and performance under these conditions.

Silver Court has no competitor in "dead white". In creamy white Florence Nightingale out performs its competitors, with Texas as next in line. Skippy excels all blotched whites. Heavily ruffled La Belle is the best of the cream colored varieties. Cynthia, Golden Crown and Keepsake, are a fine trio of yellows. Cynthia is the earliest, Golden Crown the tallest, and Keepsake the most beautiful as well as very early in bloom season. Dieppe is tops here in salmon-scarlets. Salmon Spic & Span leads the field. Its competition comes from Fashion & Sparkle. Queen Mary will rise to the top in the exhibition salmon class, and may upon further testing get the "commercial" tribute.

I still prefer Red Cherry and Redwing in scarlets. Chief Pontiac looks very promising. It has a vivid color.

The pink color class abounds in great glads. Cooney Miss, Tivoli, Variation, Truelove and Magic Wand being the most valuable for the cut flower grower. Conn. Yankee and June Day top the blotched pinks.

A newcomer in buff pink, New Yorker, is an "arty" functional beauty. I believe it to be Dr. Graff's best introduction. Phantom Beauty is an older favorite in this class.

Nancy is a good commercial red. It will get competition from the red seedlings of Graff, Weeks, Wesselman and Arenius.

Miss Chicago (champion basket-Garfield Park) is tops in floral color. Miss Wisconsin has been used as a reference for other rose introductions which do not meet its qualifications. Mauvie Rose and Tralee, and Wesselman's Rebound are all excellent. The latter a lighter colored "Chamouny". A superb addition to this class is Edgewood.

Bridal Orchid is tops for me. I still think highly of Patrician and Lucky.

King David is an excellent addition to the purple color class. It is in a class by itself.

Gay Nineties is the best "any other color" gladiolus that I have seen.

Outstanding exhibitions varieties include Miss Alberta, White Challenge, Lancaster, Boise Belle, and Queen Mary.

Best new commercial prospects:

Skippy, Edgewood, King David, Keepsake, Bridal Orchid, Cooney Miss, Cynthia, Golden Crown, Mauvie Rose, La Belle, Redwing, Pink Classic.

Best bets for major exhibition wins:

Bridal Orchid, Spic & Span, White Challenge, Boise Belle, Gay Nineties, Miss Chicago, Queen Mary, Redwing, Venida, Conn. Yankee, Skippy, Edgewood, Kevin, King David, Pink Classic.

Varieties florists like to receive:

Miss Chicago, Bridal Orchid, Phantom Beauty, Spic & Span, Miss Wisconsin, Variation, Dieppe.

Most open florets:

Bridal Orchid, Boise Belle, Spic & Span, Miss Chicago.

"Waterless wonders":

Dream Girl, Spic & Span, Tralee, Venida, White Challenge, Bridal Orchid.

Earliest:

Rebound, Mauvie Rose, June Day, Keepsake, Cynthia.

Most beautiful:

Miss Chicago, Bridal Orchid, Skippy, King David.

Most exciting new varieties:

Skippy, Gay Nineties, King David, Edgewood, Pink Classic, Kevin.

Most ruffled:

La Belle, Skippy.

NOTICE TO WHOLESALE GROWERS

Since 1931 I have conscientiously tried to produce and locate outstanding gladiolus with real commercial prospects. This objective remains as my goal.

The bulbs that are produced here have earned an enviable reputation everywhere.

Job prices and wholesale prices are gladly quoted to those persons or firms entitled to them.

Pink Classic

1951 INTRODUCTION

Gay Nineties (Krueger '51) formerly S#1010-61

A visitor upon beholding the first bloom of this seedling some six years ago said, "that one must be named Gay Nineties". Its unique coloring does suggest that period with its rich deep toned furniture and carpeting.

Gay Nineties will show in the 390 color class, as its unusual color has no "smoke" in its make-up. The color viewed in one kind of light is like that of a ripe red plum, while in other illumination it appears to have some blending of purple. Except for a lighter small throat mark with some peppering of cream, the color is of one tone.

Gay Nineties grows to a height of 55" and produces long tapered flowerheads of 18 or more buds, eight or nine of which open at one time. Six or more buds show color above the heavily ruffled well attached florets of 4" size.

Health, consistent performance, rapid and easy propagation are attributes of Gay Nineties which won seedling excellence awards at Wabash and Jefferson, and which will reward exhibitors with many "blues".

A good stock allows the establishment of a low introductory price which follows:

Price each bulb L—\$ 3.00; M—\$ 2.00; Sm—\$ 1.00; 10 bblts \$ 3.00

10 bulbs L—\$24.00; M—\$16.00; Sm—\$ 8.00; 100 bblts \$24.00

Kodachrome slide available on a loan basis.

1951 CO - INTRODUCTION

Edgewood (Torrie-Flad '51) 460

Edgewood performed very well here in its test growing. It is a very tall rose of medium shade that opens up to eight florets (on a 20 bud spike) at one time. The florets are of a medium shade of rose blending lighter to the throat where the inner petals carry a shade of rose just a bit deeper in color than that of the petal edges. The florets are lightly ruffled.

Edgewood matures in mid season, and it increases rapidly.

Both exhibitors and commercial growers should include Edgewood in their purchases.

Edgewood was champion seedling at Waterloo in 1949.

Price each bulb L—\$5.00 M—\$4.00; Sm—\$3.00; Ten bulblets \$5.00.

KING DAVID (Carlson-Puerner '51) 570

The Cosmopolitan Glad Gardens introduction for 1951 is a glistening purple with a cream picotee edging on each petal.

Like the other introductions from this firm, King David is a tall grower and consistent performer.

I carried four spikes of King David to Wabash where both the single spike and three spike seedling entries carried the top seedling award, and it won the American Home Achievement Award. It also won an award of Merit at Boston, and it was Grand Champion spike at the first State Fair show in this state.

King David is royal magenta or purple in color with a rich velvet throat. Florets are winged, ruffled and fluted with an evident cream picotee edging. It opens nine florets of 5½" size at one time on long flowerheads.

King David is a fast propagator.

Price each bulb L—\$5.00; Sm—\$5.00; 10 bulblets and one bulb \$10.00.

PINK CLASSIC (Melk Bros. '51) 560

Pink Classic has the distinction of having won a blue ribbon everytime it was shown. This is indeed an evidence of beauty since judges at the various shows are indeed, and properly, stingy with "excellent" awards. Five awards at 5 different shows is evidence of its quality.

Pink Classic is heavily ruffled, fluted and needle pointed. Its 5½" florets are well attached on a 20 bud spike of good height. Eight florets open at one time.

The color of Pink Classic is rose pink with deeper rose color areas, the beauty of which are accentuated by the ruffling and fluting. The inner throat area is clear.

If you are looking for a distinctive and "arty" glad that grows tall, try Pink Classic.

Price per bulb L—\$3.00; M—\$2.50; Sm—\$2.00; one bulblet for 80c; 10 for \$3.00.

SKIPPY (Melk Bros. '51)

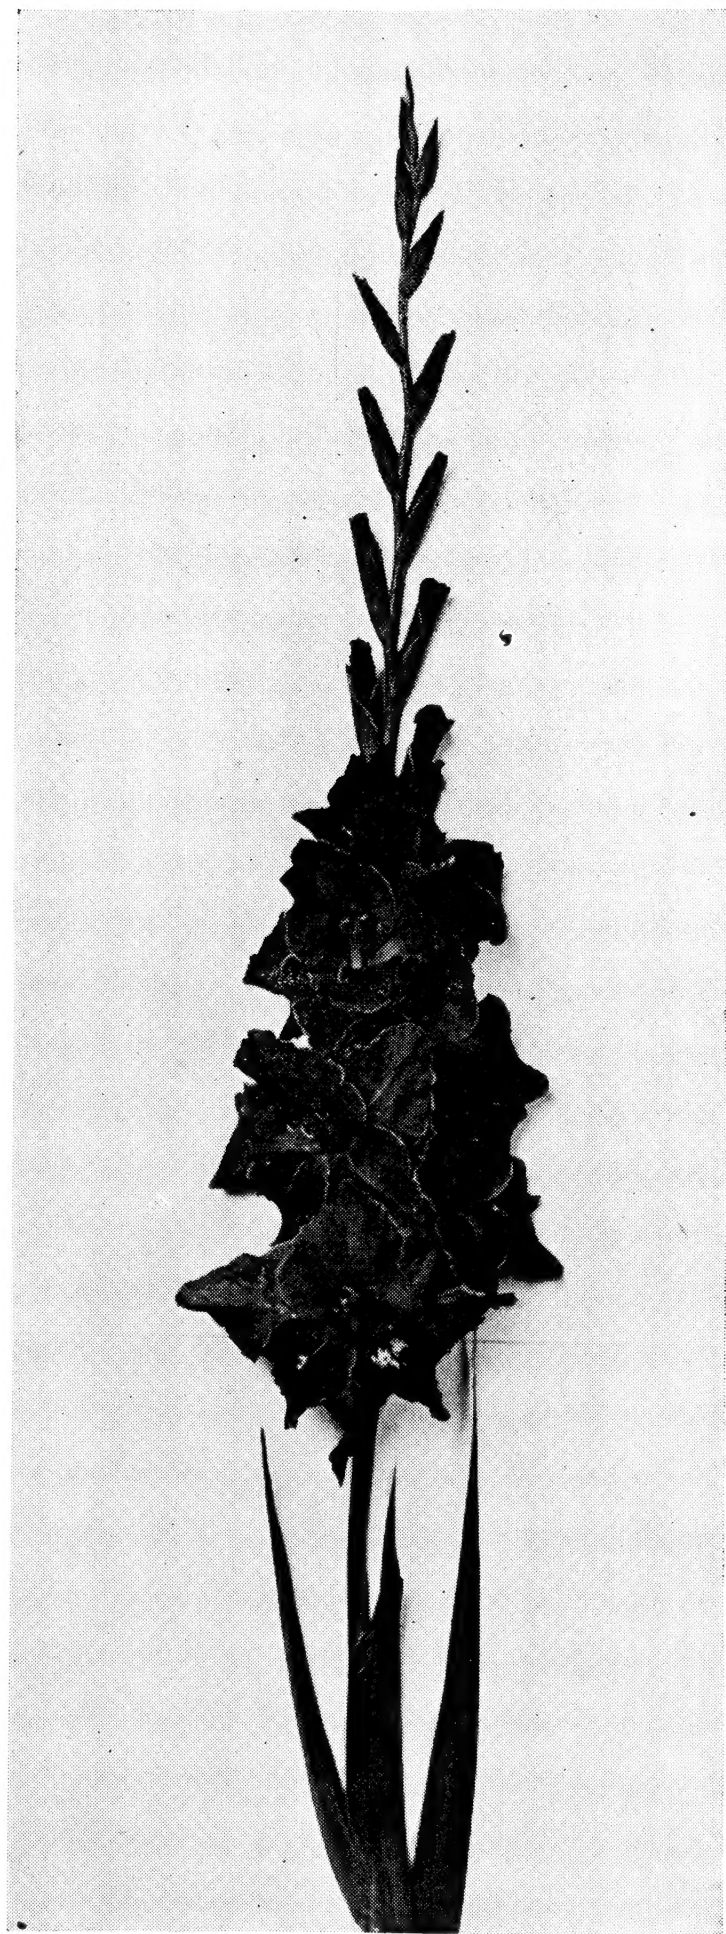

A clean small bright pink blotch on a tall white gladiolus has always been one of my favorite color combinations. When this color combination appears on a gladiolus with intensely ruffled florets of excellent attachment it is indeed important news to the gladiolus world. I regard Skippy as the top introduction of 1951 based on tests here in my garden, and by observation at eight gladiolus shows during the past season.

Skippy recorded seedling wins at Wabash, Jefferson, and other shows during the current season.

Skippy grows florets of 4½" size on flowerheads of good length, which carry more than 18 buds. It is healthy and it increases rapidly.

Beauty of color, and beauty of form are combined in this superb gladiolus.

Price each bulb L—\$3.00; M—\$2.50; Sm—\$2.00; 10 bulblets for \$3.00.

King David

KEVIN (Graff '51) 510

(Formerly seedling "Yellow Picardy")

The blue ribbon in class 510 will almost always be placed on Kevin, a giant lemon yellow which in my garden grew robust plants that produced a tall spike of 20 buds of which eight 5½" florets opened at one time.

The florets of Kevin were lightly ruffled and of excellent color.

Kevin propagates very rapidly.

It received the praise of an amateur critic of national recognition.

I consider Kevin a worthy addition to my exclusive listing of the finest gladiolus varieties.

Price each bulb L—\$5.00; M—\$4.00; Sm—\$3.00; 1 L bulb and 10 bulblets for \$10.00

FEATURED VARIETIES

The Cream of the Newer Glads

10 Bulbs at 8 times the single price

BOISE BELLE (Roberts '48) 343

The many open salmon pink florets, with their yellow centers, and yellow margins, on a tall imposing spike, can easily be a real joy to the exhibitor and garden enthusiast. Such is Boise Belle, an excellent performer. Boise Belle blooms in mid-late season, and it increases satisfactorily, from its small bulblets.

Boise Belle opens 8 to 10 four inch florets on 20 bud spikes of 26" length.

Price, each bulb L—\$1.00; M—\$.75; Sm—\$.50; 10 bulblets 75c.

BRIDAL ORCHID (Carlson-Puerner '50) 566

I believe that Bridal Orchid was the show sensation of the season, as well as a highly satisfactory commercial variety. It took Grand Champion honors for me at Jefferson. My bulblets of it now in bloom have spikes larger than most varieties produce from bulbs.

Stock of Bridal Orchid will evaporate rapidly.

Bridal Orchid will open up to ten florets of 6" size on a spike of 20 buds and of 28" length.

Price, each bulb L—\$3.00; M—\$2.50; Sm—\$2.00; 10 bulblets \$4.00

COONEY MISS (Krueger '50) 540

An average height commercial pink of excellent floret size, attachment, and propagational qualities, that is a "work glad" in the cut-flower planting, is Cooney Miss. It is a superb keeper.

Cooney Miss blooms in early season. Its vigorous bulblets produce large bulbs in one season of growing.

Cooney Miss will open five florets of 6" size on a 20 bud spike of 24 inches.

Price, each bulb L—\$2.00; M—\$1.50; Sm—\$1.00; 10 bulblets \$2.00.

CYNTHIA (Graff '49) 410

This fine, early light yellow has given excellent southern growing performance, which moves it from the prospect class to that of a great commercial. Cynthia produces a goodly number of large bulblets that germinate readily, and which grow into large bulbs.

Cynthia will open 6 florets of 4½" size on an 18 bud spike of 24 inch length.

Price, each bulb L—\$2.00; M—\$1.50; Sm—\$1.00; Ten bulblets for \$2.00.

FASHION (Graff '50) 430

This stylish recurved petaled beauty is an excellent, extra early salmon, of a fine color sheen. A real beauty.

Fashion will open six florets of 5" size on a 20 bud spike of 26" length.

It propagates rapidly.

Price, each bulb L—\$2.50; M—\$2.00; Sm—\$1.50; 10 bulblets for \$2.50.

FLORENCE NIGHTINGALE (Harris '47) 400

A Canadian introduction which crowded all other cream whites right out of my garden, by virtue of its superlative performance. It is an extremely vigorous variety.

Florence Nightingale will open seven florets of 5" size on spikes of 20 buds and 26" length.

Price, each bulb L—\$.25; M—\$.20; Sm—\$.15; 10 bulblets for 25c.

GOLDEN CROWN (Geo. Melk, Jr. '50) 412

Golden Crown repeated its excellent performance in my planting. Its general all around excellence will take it to success as a commercial variety. It is of a medium to deep shade of clear unmarked yellow. Golden Crown is an early variety and a 100% cutter.

Golden Crown will open six florets of 4¾" size on spikes of 18 buds and 24" length. It is a tall grower.

Price, each bulb L—\$3.00; M—\$2.50; Sm—\$2.00; 10 bulblets for \$3.00.

La Belle

KEEPSAKE (Krueger '50) 410

Keepsake is the most beautiful of all yellow varieties because of its clear, lively, unblemished color. The low growing plants produce spire type spikes. A small percentage of crooked spikes will occur.

Keepsake was a basket winner for me at Wabash, and it was featured in my display at the Central International show.

Keepsake will open six florets of 5" size on a spike of 18 buds and 24" length.

Price, each bulb L—\$2.00; M—\$1.50; Sm—\$1.00; 10 bulblets \$2.00.

LA BELLE (Krueger '49) 406

No other cream approaches La Belle in total commercial importance. It is very vigorous and very heavily ruffled. La Belle blooms in late season. It is a heavy propagator and like all gladiolus in this list it is healthy.

La Belle will open five florets of 5½" size on a 20 bud spike of 28" length.

Price, each bulb L—\$1.00; M—\$.75; Sm—\$.50; bulblets, 10 for \$1.00.

MAUVIE ROSE (Wesselman '48) 462

Extra earliness, and a good deep rose color blending to mauve in the throat. It is at its best in early season, and in late season. Mauvie Rose is a great commercial for the early market.

It is easy to grow large bulbs from bulblets of Mauvie Rose.

Mauvie Rose will open 6 florets of 5" size on a spike of 18 buds, and of 24" length.

Price, each bulb L—\$.50; M—\$.35; Sm—\$.25; 10 bulblets \$.60; 100 for \$5.00.

MISS ALBERTA (Torrie-Flad '50) 401

Miss Alberta offers a beautiful color combination, white with a lavender throat coloration. It grows to average height.

Miss Alberta will open 6 florets of 5" size on 18 bud spikes of 22" length. The florets are very firm in texture and they keep well.

Price, each bulb L—\$1.00; M—\$.75; Sm—\$.50; 10 bulblets for \$1.00.

MISS CHICAGO (Buchheit-Krueger '49) 560

For floral beauty at its best, it is Miss Chicago! Champion basket for me at Garfield Park. For impressive spikes try Miss Chicago, a winner for me and for my customers at the shows this past season.

The first blooms of Miss Chicago exhibited this year were from bulbs that were 6 years old! This is really a healthy glad!

Miss Chicago will open up to 10 florets of six inch size on spikes which carry 20 buds. Spikes are of 24" length. It is a tall grower and a medium propagator.

Price, each bulb L—\$2.00; M—\$1.50; Sm—\$1.00; 10 bulblets \$2.40; 100 bulblets \$20.00.

MISS WISCONSIN (Krueger '43) 460

Still the top rose of medium shade! It has successfully withstood the challenges of many an aspiring introduction.

Miss Wisconsin is too well known to require description.

Price each bulb L—\$.10; M—\$.08; Sm—\$.05; 100 bulblets \$.80.

NEW YORKER (Graff '50) 540

New Yorker was indeed very impressive in both performance and beauty. In fact it appears to me to be Dr. Graff's finest introduction.

New Yorker is an "arty" pleasing warm pink.

New Yorker will open 7 florets of 6" size on a 20 bud spike of 26" length. It is a mid-season bloomer of good height.

Price each bulb L—\$2.50; M—\$2.00; Sm—\$1.50; Ten bulblets for \$2.50.

QUEEN MARY (Torrie-Flad '50) 530

Did you fail to obtain this beautiful exhibition salmon? The huge, beautiful, spikes of it grown here indicate that you should not let it happen again.

I consider Queen Mary to be a commercial prospect.

Queen Mary will open seven florets of 6½" size on bud spikes of 18 buds and 26" length.

Queen Mary always appeals to the viewer.

Price each bulb L—\$2.00; M—\$1.50; Sm—\$1.00; 10 bulblets \$2.00

REBOUND (Wesselman '49) 460

For two years Rebound, here as a test seedling, bloomed almost two weeks earlier than any other variety. This virtue coupled with health and good propagation make it commercially important.

Rebound will open 8 florets of 4½" size and 18 bud spikes of 22" length.

Its plants are of average height from which it builds its tall spike.

Rebound will be a great florists favorite as its lively rose color and lighter petal edges have real color appeal.

Price each bulb L—\$1.00; M—\$.75; Sm—\$.50; Bulblets 10 for \$1.00.

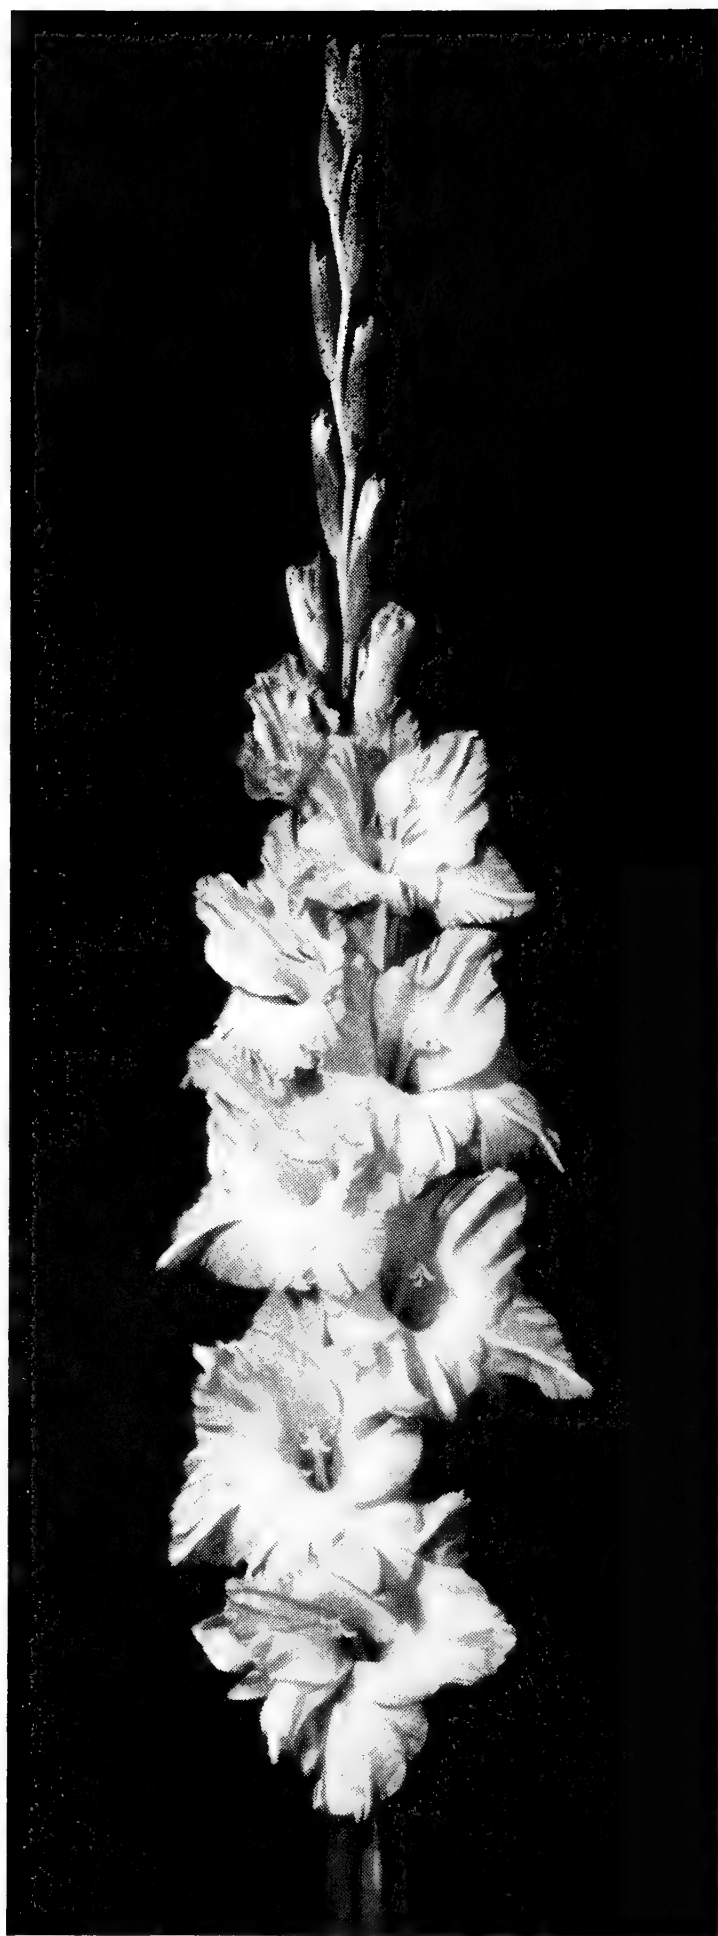

RED CHERRY (Roberts '46) 436

The soft scarlet tones of Red Cherry are a joy to behold. This shade of scarlet is accepted by the florist in his work.

Red Cherry has all the requisites of a great commercial glad. It blooms in early season.

Red Cherry will open seven florets of 5" size and an 18 bud spike of 26" length.

Price each bulb L—\$.35; M—\$.25; Sm—\$.10; Bulblets 10 for 25c.

Hearts Desire

REDWING (Wright-Graff '48) 536

Superlative spikes are common place with Redwing whether grown from large or small bulbs. Its exemplary habits make it a great commercial gladiolus.

Redwing will open eight florets of 6" size on 20 bud spikes of 30" length.
You can't go wrong with Redwing.

Price each bulb L—\$1.50; M—\$1.00; Sm—\$.50; Bulblets 10 for \$1.75.

SILVER COURT (Lins '48) 400

At last a white gladiolus that is white! The massive florets attained 500 size here. I predict that Silver Court will be grown for many years.

Silver Court will open seven florets of 5½" size on spikes of 20 buds and 24" length.
This is a real beauty, with an excellent set of habits, including earliness.

Price each bulb L—\$.50; M—\$.35; Sm—\$.20; 10 bulblets for 50c.

SPARKLE (Allen-Ruble '50) 530

The usual vigor of Ruble introductions is present in Sparkle which possesses a vibrant salmon color. In spite of an occasional misplaced floret it will attain favor with exhibitors and growers.

Sparkle will open seven florets of 6" size on 20 bud spikes of 28" length.

I know of no more vibrant salmon color than that of Sparkle. It is a real commercial prospect.

Price each bulb L—\$1.00; M—\$.75; Sm—\$.50; 10 bblts. for \$1.00.

SPIC & SPAN (Carlson-Puerner '46) 432

The "precision" spikes of Spic & Span have graced the fields and show tables everywhere glads are grown and shown ever since its introduction. This past year was no exception.

Spic & Span will open 9 florets of 4¾" size on spikes of 20 buds and 28" length.

Spic & Span is the criterion of reliable satisfactory beauty and performance.

Price each bulb L—\$.30; M—\$.25; Sm—\$.20; 10 bulblets 50c.

TIVOLI (K & M ?) 440

The vibrant, pleasing, warm toned pink color of Tivoli is indeed a pleasing one. Its vigorous growth, consistent performance, health and easy propagation stamp it as a great gladiolus.

Tivoli will open 7 florets of 5½" size on 20 bud spikes of 26" length.

Price each bulb L—\$.15; M—\$.10; Sm—\$.05; 10 bulblets \$1.20.

Two Misses and a hit!

Champion Bridal Orchid

Nancy Puerner

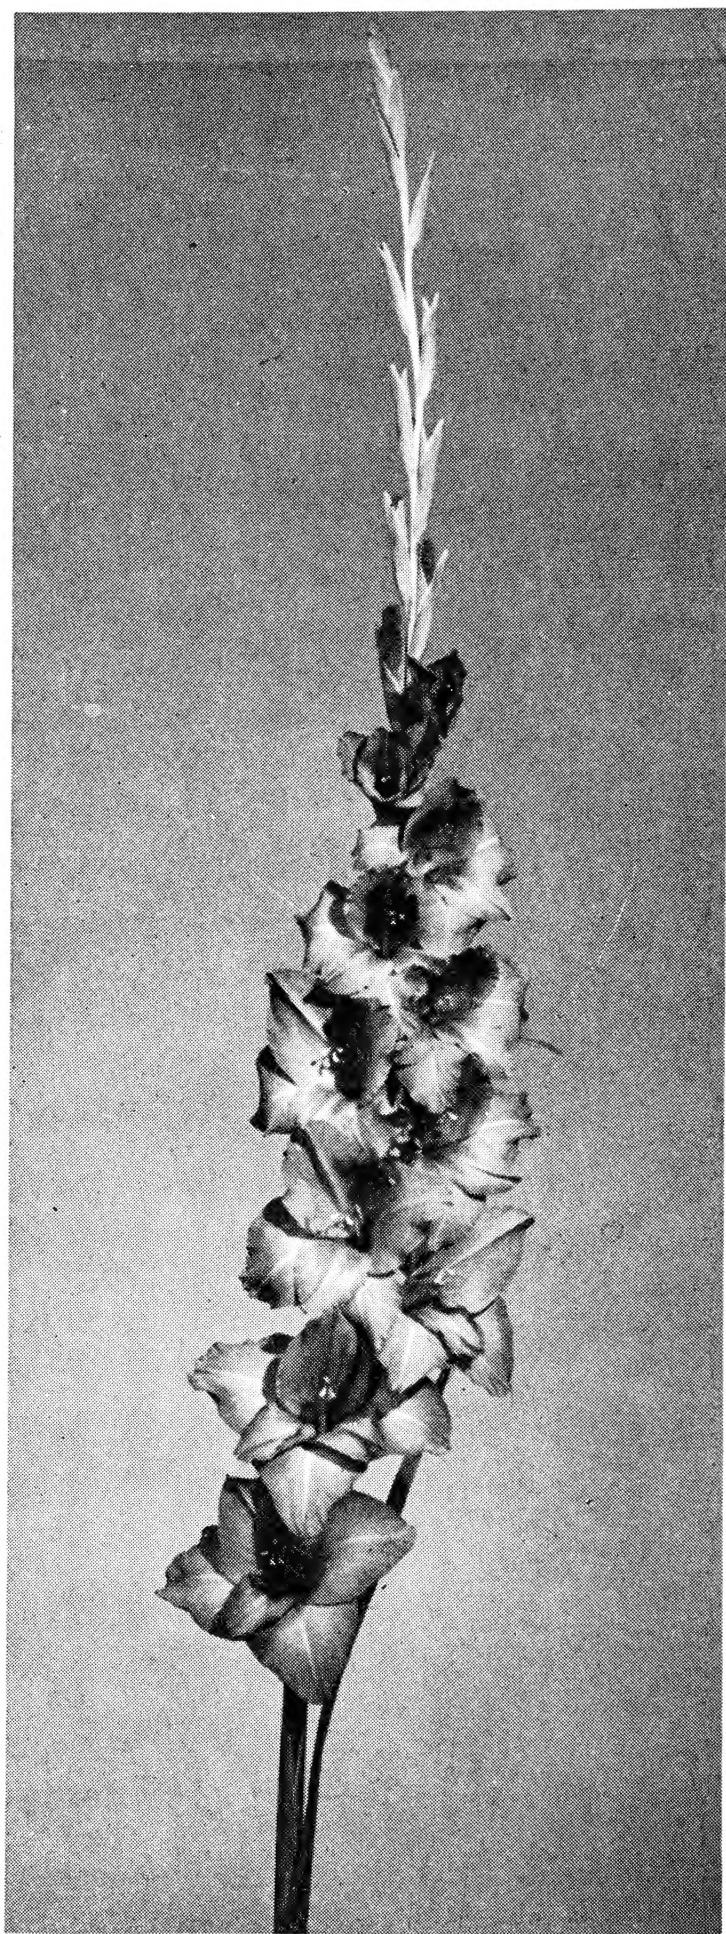

Diane Krueger
